Ref. N 318 dated 12.03.2013

To: Christopher Holgate
Founding Trustee and Chairman
Fire Safety Friends of Russia
England

Dear Mr. Holgate,

Further to our cooperation with the development of fire behavior and live fire training in Russia, I am pleased to inform you that this type of training has now been approved for firefighters in Russia. Of course, we have made some specific adaptation to Russia of the training procedure used in the United Kingdom.

May I thank you and "Fire Safety Friends Of Russia" for the valuable assistance you have given helping us to achieve our goal. The presentation in Moscow to the Moscow Fire Service District Commanders in 2011 by Martin Johnson and Denis Sebentsov, the arranged visit in 2012 to the UK for a training session at FSC in Moreton-in-Marsh, the visit to Gatwick Airport together with the provided documentation and general cooperation has played an important part in introducing this training into Russia.

We look forward to maintaining our cooperation and mutual relation in the future for the matter of exchanging our experiences and improving fire fighting for the good of our people in both countries.

Sincerely yours,

Sergey V. Khan
General director
